

TECNAU

Empowering Digital Print

**SOLUTIONS TO
EMPOWER DIGITAL PRINT
TO DO MORE WITH LESS**

COMPLETE PORTFOLIO FOR EVERY APPLICATION MARKET

With an extensive line of feeding, cutting and folding systems, quality assurance systems and in-line finishing and converting modules for continuous and cut sheet digital printers, **we have solutions essential to every digital print application.**

It's the pride we have in our products, along with our one-of-a-kind industry experience and comprehensive engineering resources that allow Tecna to stay ahead of the competition and continually anticipate customer needs.

Our goal is to go beyond simply reducing digital print production costs to actually increase the value of your print production and enable new applications.

WE STAY CLOSE TO OUR CUSTOMERS

Our products increase productivity, cut labor and paper costs, and even make new applications possible.

- Our TC 1550 HS Series of Dynamic Processors enable the creation of personalized coupons aimed at individual statement/invoice recipients.
- Libra bookmaking systems allow the cost-effective creation of single copy books & booklets, opening up new markets. Tecnau solutions truly empower digital print to help you do more with less.

"...KUBRA has a great partner in Tecnau, we've had our issues but they've always done what is right and come to bat for us and come through with their promises."

~ Rob Iantorno, Vice-President of KUBRA North American Operations/Service Delivery

Highly experienced technical support engineers, state of the art documentation, and regional spares stocking with next flight emergency shipment are available to support customers, partners, and channels worldwide.

We maintain our own customer history and product configuration files to assure accurate response.

Simple, easy-to-maintain designs and built-in quality make Tecnau equipment renowned for reliability, efficiency and steady performance.

"...Tecnau's sales, technical support and training efforts ensured a smooth transition to dependable and consistent manufacture of our products."

~ Ken Shanovich, Operations Manager at Liturgical Publications

"...We're happy with the up-time and there's been minimal down-time - it has been a nice partnership with Tecnau."

~ Dave Bartkowiak, Executive Director of Operations at Utilitec

FIND TECNAU AROUND THE WORLD

Global service and around-the-clock support help ensure our reputation as the industry's reliability leader.

Tecnau operates today through three main production and R&D centers in Europe (Italy and Sweden) and the United States, a direct sales force and technical support in Europe, US and Asia and a reliable distribution network worldwide.

Tecnav offers a complete product portfolio

dedicated to paper handling, monitoring, processing and finishing for the digital printing industry.

We provide integrated solutions

to support the broadest array of applications for Transactional Printing, TransPromo, Direct Mail, Publishing, Graphic Arts, Book on Demand and Short Run.

Our products are compatible

with today's most advanced digital printers and can be adapted to meet your printing needs. We maintain vital product development partnerships with our customers and every major printer manufacturer.

Our history and background

in industrial automation opens the door to customized solutions to support specific requests. Several of our products were inspired by customer requests: technology meeting unsolved needs may give rise to the most surprising and advanced innovations. We put at your disposal our engineering skills; indeed, this is how we innovate.
