WATER-BASED INKS Thousands of Formulations

Kao has created thousands of water-based dye and pigment inkjet inks for printing on an array of substrates. Water-based inks emit low VOCs, and are among the most eco-friendly and cost-effective inks available for TIJ, piezo, and CIJ technology.

INK ADVANTAGES

- Print on porous and lightly coated matte and glossy materials
- Invisible and fluorescent options for added security
- Maximizes uptime with little printhead maintenance required
- Fast drying
- Environmental friendly
- Excellent decap
- High-speed printing
- Print on thin film and flexible packaging with LUNAJET

MORE SUBSTRATE OPTIONS

Kao's aqueous inks perform well on a variety of porous substrates commonly used in various industries, including:

- Corrugated cardboard
- Paperboard
- Paper documents
- Lumber
- And more

AVAILABILITY

- Continuous supply
- No minimum order
- Single cartridges and bulk packaging
- Cartridges for bulk-ink configuration for HP and Funai
- CMYK and spot colours

Additionally, our **LUNAJET** ink is an eco-friendly water-based inkjet ink specially formulated for industrial printing on flexible film packaging.

Supported Applications
Transactional documents
Direct mail
Wood and lumber
Cardboard packaging design and coding
Lottery and gaming
