

One size fits all.

Marbach platen cleaning device mplaten|cleaner.

Heilbronn, 28th January 2021

The Heilbronn-based diemaker Marbach has further developed its platen cleaning device mplaten|cleaner. Until now, different cleaning devices were necessary for corrugated board and paperboard die-cutting machines. Now there is a single universal device which is compatible with all common machine types.

Erik Bülow, Sales Marbach Die Supplies & Automation: "The new mplaten|cleaner is designed in such a way that it can be used in all die-cutting machines commonly available on the market. It is an indispensable device for cleaning the cutting platen. Even the best tool is useless if the platen is uneven and dirty. With the mplaten|cleaner, our customers now have one universal device with which they can clean their whole machine park. Quite simply 'One size fits all'."

The new mplaten|cleaner is available at Marbach in February.

About Marbach

Packaging. Performance. You. This is the slogan of Marbach, the world's leading manufacturer of die-cutting and thermoforming tools. With 1,500 employees worldwide, Marbach sets the benchmark in its industry. Since 1923. And delivers pure performance to its customers. Totally individual. For each requirement the best solution. In every price range. Worldwide.
