

TECHNOLOGY CENTER ROTOGRAVURE @ HOCHSCHULE DER MEDIEN STUTTART

MINI OPEN HOUSE
APRIL 22, 2:30 PM (CET) – 3:00 PM

For many years we're running seminars and do print trials for the gravure industry and quite a number of industry professionals have had the chance to meet us in Stuttgart. Still, few don't know that our contribution to the world of rotogravure doesn't end there. If you are interested in who we are and what we do, but had not the chance to visit and meet us in Stuttgart until now, this might be the opportunity.

We will stage a "Mini Open House" on Thursday, April 22 from 2:30 PM (CET) to 3:00 PM. We will give an introduction to HdM, the print media technology programme, and our technology center. Let us show you what we do and where we think the gravure industry is heading. After the quick tour we are open for discussion, questions and answers.

This mini open house will be held as a Zoom meeting. If you would like to join, please send an email with the subject **mini open house** to tiefdruck@hdm-stuttgart.de and you will get back an email with a Zoom link.

We are looking forward to meeting you.

THE TEAM

Dipl. Ing. Thomas Sprinzing, Prof. Armin Weichmann
and Dipl. Ing. Matthias Galus
