EXPOGRÁFICA'S PROFILE

For the past 20 biennial editions, we have been gathering brands and exhibitors in a unique environment in order to create businesses and to launch technological innovations.

In our 40-plus-years track record, we have managed to establish ourselves as the largest Latin American exhibition of printing, labeling and packaging technology capable of attracting thousands of qualified buyers in every edition.

Our success is possible thanks to the trust of exhibitors and visitors that continue choosing us because we are the sector's most relevant business forum, as well as the constant support of sister associations and industry specialized media.

WE ARE COMMITTED TO THE HEALTH AND SAFETY OF ALL THE EXHIBITORS AND ATTENDEES

We have updated our official regulations to incorporate the sanitary measures and good practices on issues like contagion prevention to foster a safe space that is conducive to preventing the spread of all kinds of viruses and biological agents, which we will update as indicated by federal and state authorities.

Expo Guadalajara holds the #SAFETRAVELS seal given by the World Travel & Tourism Council which endorses the sanitary protocols and guidelines necessary to continue operating in the venue.
