

OHIO’s live Certified Engraving for the 21st Century

You are cordially invited to see our transformative developments in action today. Specifically, watch as we run through a quick multi-cylinder job using our Auto-Documented Cylinder tools including:

- *DocuCell* - Real-time cell measure with locations selected in Collage
- *Vital Proof* - Real-time image reconstruction based upon the actual stylus depth
- *Birth Certificated* – Summary data presented in pdf form and MIS integrated
- *OHIO Dashboard* - Engraver web-based archive of cylinders cut in past days, weeks and months

We are here for you!

1. Visit us at virtual.drupa.com
2. Take part in our **virtual live-presentation – OHIO Certified Engraving**
3. Make an appointment with the OHIO colleagues for **individual meetings** either thru the virtual.drupa APP or via E-Mail.

Join our virtual live-presentations

The virtual live-presentations will be conducted with Microsoft Teams.

The Teams invitation links are deposited in this PDF document in the table below.
