Inkjet Ink&Cartridges

HONGSAM DIGITAL SCIENCE & TECHNOLOGY Co.,Ltd.

www.ink4you.com

About us

Founded in 2001, Hongsam Digital Science & Technology Co., Ltd. is engaged in research and production of professional inkjet inks for textile printing & non-woven fabrics printing, digital image, art reproduction & interior decoration, office & home printing, advertisement & banner printing, digital printing/publishing, industrial applications, etc.

As a technology focused company, Hongsam has continuously invested on research and development and already built up comprehensive Intellectual Properties (IP) portfolio. With the enterprise value of "Science, Honesty, Transcendence, Environmentalism", Hongsam develops high quality inkjet inks for the state of art digital science & technology.

Regarding digital image industry, we offer four-color, six-color, seven-color, eight-color, eleven-color and twelve-color pigment inks to be used for Epson, Roland, MIMAKI, MUTOH and other type of printers. With high light-fastness and weather fastness, these water-based inks can prolong the life of print heads. By applying advanced color technology, Hongsam's ink provides customers the widest color gamut and the highest color saturation. This advantage has been well recognized by professional users around the world.

Regarding development of digital textile printing, Hongsam can offer JETEXTILE" pigment ink, "REACTOME" reactive dye ink, "HOTME" dye sublimation ink, "SILKMATE" acid dye ink and disperse dye ink. Furthermore, Hongsam can also supply white pigment ink for dark-color fabrics/clothes printing as part of Digital Textile Printing (DTG) solution.

As a company with commitment on digital inkjet industry, Hongsam will provide world-class products and service to our customers. Hongsam will be part of on-going digital revolution and contribute to new digital life of everyone. Hongsam Digital Company, your partner of inkjet printing solution!
