

JY-CS400 Paper Tube Sealing Machine

USE

Apply to paper covers composite cans, calendars cans, tea cans, wine cans, tin covered composite cans, cardboard box curling and edge cover.

FEATURE

- 1.Suitable for mass production of composite cans;
- 2.function inside curling and sealing manhole covers for scrap in one;
- 3.large-scale, maximum diameter 400 mm, maximum height 500 mm;
- 4.CNC operation, touch screen and PLC control, three kinds of production modes switch easily.

SPECIFICATION

Tube diameter	20-400 mm
Tube wall-thickness	1-5 mm
Tube length	20-500 mm
Working air pressure	0.2-0.6 MPA
Main motor	2.2 KW
Touch screen	MCGS
PLC controller	Delta
Product speed	10-20 / min
Operate mode	Manual
Mainframe size	800*900*2000 mm
Weight	800 KGS
