

TYMK Series Die-cutting and hot stamping machine

Detailed Product Description:

It is the latest generation with high precision and high efficiency. It is major suitable for ironing printing all assortments of multichromatic electrochemical aluminum, pressing can cavo-convex trademarks, sampling advertisement, cartoon, books, cover, post card etc. Various senior decoration, printing matter, It is an ideal equipment for printing, packaging decoration as well as plastic industry.

Features:

- 1, High strength duo to integral casting with high quality steel.
- 2, Single plate electromagnetic clutch is sensitive and reliable safety.
- 3, Operational height is reasonable arranged ,the opening angle of moving bed is optimum.
- 4, Program control, high quality production
- 5, Accurate skip, saving foil.
- 6, Single pressing ,continuous pressing, adjustable delay pressing available.
- 7, Reliable performance of safety protection system.
- 8, With centralized oiling pump ensure the lubricating, decrease the wearing.

Model	TYMK-750	TYMK-930	TYMK-1040	TYMK-1100	TYMK-1200
Max. Die Cutting Size	750*520mm	930*660mm	1040*720mm	1100*800mm	1200*820mm
Max. Foil Stamping Size	740*510mm	930*640mm	1040*720mm	1100*800mm	1200*820mm
Foil Length	520mm	640mm	720mm	800mm	820mm
Motor Power	2.2Kw-6h	4Kw-4h	4Kw-6h	4Kw-6h	4Kw-6h
Total Power	10.2kw	16.5kw	16.5kw	20.5kw	20.5kw
Machine Weight	2200Kg	3200kg	3800kg	4700kg	5000kg
Speed	26±2times/min	23±2times/min	23±2times/min	21±2times/min	21±2times/min
Foil Groups	2	3	3	3	3
Heating Area	2	3	3	3	3
Overall Dimensions	1450*1900*1950mm	1800*1900*2150mm	1800*1950*2150mm	2150*2150*2300mm	2150*2250*2300mm
