

Chemline India Limited was started by *Dr. Ravindra Nath Goel, PhD in Polymer Technology from IIT-Delhi*. He left his job to start his entrepreneurial journey and started the organization from scratch. Today organization is spread over 11 acres land encompassing a state of art manufacturing facility and well equipped laboratories, dedicated to unending quest for excellence and providing world class products and services to our esteemed customers. From a modest and humble beginning in 1990, CHEMLINE has emerged as **India's No. 1 Manufacturer and Exporter of a wide range of Industrial Adhesives & Coatings.**

We are an **ISO-9001:2015, 14001:2015, 45001:2018 certified** company headquartered at New Delhi, India. Chemline manufactures a complete range of world class Adhesives and Coatings for **Paper-Printing, Packaging and Converting Industry, Flexible Packaging Industry, Hygiene Industry, Labelling Adhesives for Breweries, Distilleries and Pharma Industries & specialized Hotmelt Adhesives** for vast range of applications. We are also started manufacturing **Label Stocks & Printed Labels**. Today Chemline offers **over 500+ products** in area of Adhesives & Coatings for various applications.

Our products are of global standards and we are exporting to **about 35 countries across the globe**. Our organization is continuously working to develop the products which are environmental friendly. We are serving **1000+ Happy customers worldwide**.

We have innovated in the industry by providing various products which have changed the way industry works. Some of the notable innovations are as follows:

- First to introduce **Polymer based Labelling Adhesive & Ice Water Resistant adhesive** which replaced Dextrin/ Casein based adhesives.
- First to produce **Hotmelt adhesives for Plastic to Paper/Board bonding** based on APP (Side product of polypropylene plant).
- First to make **Water based Adhesives** in India for Automatic high speed lamination machines for both **Offset & Flexible Packaging** industry.
- **Heat sealable Water/Oil Proofing coating** for paper/board for application in food wrapping & paper cups which will serve as a replacement to LDPE coating/Plastic.
- Aluminium-Aluminium sealing application adhesive using water based coating.

Apart from being in the forefront of developing Innovative Technologies, CHEMLINE is supporting the social causes to transform the lives of the poor and needy. To achieve this end, CHEMLINE has established "**CHEMLINE CHARITABLE FOUNDATION**" for regular and sustainable support.

Chemline Celebrating 30 years of Glorious Journey

Chemline came into existence in 1990 and led by the vision and untiring efforts of its founder **Dr. Ravindra Goel**, it completes 30 years of its journey in 2020.

Why is Chemline important for Indian industry? Chemline has innovated/developed a number of unique products to fulfill the emerging needs of the industry and was the first to manufacture them in India.

Thus, Chemline has immensely contributed in taking forward our Prime Minister's Vision "**Atam Nirbhar Bharat**"

Chemline's product range includes **World-Class Adhesives and Coatings** which serve Paper-Printing, Packaging and Converting industry, Flexible Packaging, Hygiene, Labelling Adhesives for Breweries, Distilleries, Food and Pharma industries and specialized Hot Melt Adhesives for multiple applications and industries.

Chemline has recently started manufacturing some of the downstream products like **Label Stocks** and **Industrial Tapes**.

Chemline's Products are manufactured using "State of the Art" modern facilities under the supervision of qualified and experienced team of engineers and scientists and backed by excellent services of marketing professionals.

As a result, apart from being a well-known name in the Indian industry, Chemline's products are exported to over 35 countries worldwide that includes Germany, Spain, UK and many more.

The journey has just begun and round-the-clock work continues at the R&D Laboratories led by Dr. Goel himself to continue providing innovative, cost-effective and environment friendly products to the Indian as well as global industries in times to come.
